PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

This Secured Storage Area is located 6.8 kilometers (km) south-southeast of Kungur (57-26N 056-57E). This installation is served by a probable secondary all-weather road. A support area is located at the north edge of the storage area.

The installation encompasses approximately 500 acres and includes a total of 324 buildings, of which there are five administrative, one possible administrative building, 13 barracks, four probable barracks, three possi-

ble barracks, 77 general storage buildings, nine probable general storage buildings, 13 possible general storage buildings, 38 general support buildings, four guard shacks, and 157 civilian dwellings. The installation is divided into a double-fenced storage area and a support area.

The most recent coverage of the installation is [REDACTED] and there has been no apparent change since its initial coverage in [REDACTED]

DESCRIPTION OF INSTALLATION

Road Service

A probable secondary all-weather road connects the installation with the probable secondary all-weather road from Kungur to Achit (56-48N 057-54E).

Administrative and Troop Housing Area

Area D is located within the support area and contains one possible administrative building, 13 barracks, four probable barracks, three possible barracks, nine probable general storage buildings, 13 possible storage buildings, and 38 general support buildings.

This area is connected to the storage area by a graded earth, possibly all-weather road.

General Storage Area

Area E contains 77 general storage buildings. All the buildings are approximately the same size. Heavy vegetation within the area precludes the identification of other possible support buildings.

Other Buildings

There are four probable guard shacks, three on the north side of the storage area and one on the southwest side.
